ABOUT REGENT'S INTERNATIONAL SCHOOL BANGKOK

Regent's International School Bangkok is a well-established international day and boarding school, serving **approximately 800 students** from pre-nursery through Year 13. With **180 staff members across two campuses** in the heart of Bangkok, the school's community includes both local families and international boarders from around the world.

Safeguarding is woven into daily life. For boarding staff especially, the responsibility is constant: caring for children around the clock, ensuring their safety, and creating a positive environment.

"The system has been transformational. Staff are much more aware of safeguarding, and students are better at telling us what's going on. It's created a culture of openness and trust."

Andy Edmonds // Principal // Regent's International School

THE CHALLENGE

Before adopting CPOMS StudentSafe, Regent's faced challenges in recording and managing safeguarding concerns across its diverse community.

With separate school and boarding campuses as well as staff from varied backgrounds, there was no single, clear system for communication. Information was often shared verbally, through meetings, or even on paper. This led to inconsistencies, uncertainty, and in some cases, concerns not being raised at all.

“Previously, everything relied on word of mouth, conversations, and bits of paper being passed around. There was no way to build a clear picture or raise the profile of safeguarding effectively.”

Regent's International School**

HOW CPOMS HELPED

When evaluating options, simplicity, security, and confidence were key.

CPOMS StudentSafe stood out when compared to other solutions due to the strong support provided during setup, the platform's ability to adapt to the school's existing safeguarding policies, and its proven ease of use. CPOMS was the natural choice.

"It's simple, intuitive, and easy to use. Staff know their data is safe, and they feel confident using it." **Andy Edmonds // Principal // Regent's International School**

IMPLEMENTATION

Implementation at Regent's was smooth and straightforward. CPOMS integrated seamlessly with the school's MIS, and leadership gradually introduced staff to the system, initially using it only for recording

A year later, inspired by how other schools were leveraging the platform, Regent's expanded CPOMS across the whole school to monitor wellbeing.

Training played a vital role in building staff confidence. CPOMS' training mode allowed staff to practise without consequence, while accessible knowledgebase guides ensured ongoing support.

"The training experience was excellent. Staff quickly became confident entering incidents, and the system has become a natural part of their daily practice."

**Andy Edmonds // Principal
Regent's International School**

THE RESULTS

Since adopting CPOMS StudentSafe, the transformation has been remarkable. Safeguarding and wellbeing are now embedded across the school, with staff more vigilant and perceptive to even the smallest signs of concern.

1

Reports have increased significantly reflecting not more incidents, but greater awareness and stronger student trust. Students now feel more confident approaching staff, knowing they will be listened to and supported.

“The system has been transformational. Staff are much more aware of safeguarding, and students are better at telling us what’s going on. It’s created a culture of openness and trust.”

**Andy Edmonds // Principal
Regent’s International School**

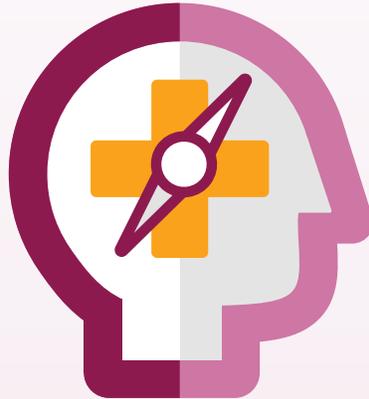

2

Operational efficiency has also improved dramatically. Sensitive information can now be quickly and securely communicated, tracked, and escalated. In one case, repeated minor wellbeing reports revealed a student was frequently left at home alone. With CPOMS, staff were able to build a chronological record, engage with parents, and arrange boarding, ensuring the student was safe and supported.

3

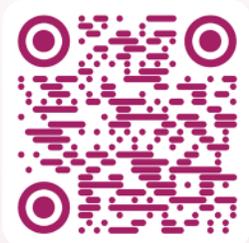

Staff feedback has been overwhelmingly positive. They value the ability to communicate concerns clearly, share responsibility, and feel empowered to make a difference.

CPOMS StudentSafe has transformed safeguarding for Regent’s International School Bangkok. The platform has created a culture of vigilance, trust, and responsibility, enabling staff to protect students more effectively and provide a safer, happier environment for all.

“They love it. Everyone uses it, everyone feels responsible, and it gives staff ownership of wellbeing. We couldn’t imagine managing safeguarding without CPOMS.”

**Andy Edmonds // Principal
Regent’s International School**
